Raw data files [*.EDF]

- •S1.edf
- •S2.edf
- •S3.edf
- •etc.

Edf2Ascii.exe or EDFConverter.app (from EyeLink Developer's kit or separately)

Text data files [*.ASC]

- •S1.asc
- •S2.asc
- •S3.asc
- •etc.

Issues

No decisions, but need relevant DLLs for windows version

Robodoc (from https://blogs.umass.edu/eyelab/software/)

Cleaned data files [*.da1]

- •S1.da1
- •S2.da1
- •s3.da1
- •etc.

Issues

Setting parameters for Robodoc

Eyedry (from https://blogs.umass.edu/eyelab/software/)

Text data files for each measure

- •first pass.ixs
- •first fixation.ixs
- total fixation time.ixs
- etc.

Issues

Decisions about how to calculate each measure

R Markdown code (from Roland, Mauner, & Hirose, 2021; files available at https://osf.io/4rq3m/)

HTML files summarizing all R analyses

- Experiment 1.html
- Experiment 2.html
- •Experiment_3.html
- •etc.

Issues

- Creating functions and good programming habits
- Decisions about LMER analyses
