

WSDN Excursion

Let's learn from Kobe's approach, share in its wealth of knowledge, and strengthen our collective commitment to shaping the future of healthcare and community resilience.

The excursion planned by WSDN24 allows visitors to explore Kobe's beautiful streets while learning about the strength of the people and communities who played a key role in its recovery. This experience offers more than just sightseeing; it encourages reflection on how to prepare for disasters in one's own country or community. The wisdom and innovations gained during the recovery process are woven into the fabric of Kobe, and visitors can experience these lessons firsthand by exploring the city on foot.
